Performance vs Number of Transactions (n = 20 users)
(a) Average Latency vs Transactions
Average Latency (ms)
Number of Transactions (t)
BGW Broadcast Encryption
Single Encryption
(b) Throughput vs Transactions
Throughput (txn/s)
Number of Transactions (t)
BGW Broadcast Encryption
Single Encryption
(c) Communication Overhead vs Transactions
Communication Overhead (MB)
Number of Transactions (t)
BGW Broadcast Encryption
Single Encryption
(d) Computation Overhead vs Transactions
Computation Overhead (s)
Number of Transactions (t)
BGW Broadcast Encryption
Single Encryption
